

RE: Reforming the concealed pistol license (CPL) system.

I am a CPL holder and dread the renewal difficulty here in Kent County. Here one must plan on starting a full year ahead or there might well be a gap in coverage.

Lets face it. Most of the trouble stems from the "reluctance" to issue by some jurisdictions.

So since "Shall Issue" is the law please help expedite the process by allowing a qualified citizen to seek the most agreeable county.

I would venture to say that there are several counties that will be happy to take my money.

Thank you.
